Title: ERIC ED234802: Microform Collections in New Orleans Academic and Public Libraries: A Union List. This union list identifies 455 microform collections held by 8 public and academic libraries in New Orleans. It is noted that newspapers, periodicals, Government Printing Office (GPO) depository microfiche, and individual monograph titles were excluded from the list unless they are a part of a publisher's series, archival project, or manuscript collection. The list is in alphabetical order by main entry with many cross references from alternate titles provided. Each entry includes the name and institutional or personal author(s) of the material on microform; the dates and types of information covered by the series; the name of the micropublisher or original source of the series; a designation of the type of microform; the number of reels where applicable; symbols designating the libraries that hold the microform series; and a notation of partial holdings or collections on standing order. A list of libraries included is also provided. (Author/ESR)
